RICHARD F. FORTUNE

was the fourth born son of Zachariah Fortune.

ZACHARIAH FORTUNE

Married: Elizabeth Burnett on 5 Jan 1789 in Amherst County, Va.

Their children: Elisha Fortune (who became one of the earlier settlers of Fountain Run, Monroe County, Kentucky. He married Elizabeth "Eliza" Loving. Much is written about in early Kentucky pioneer records. She was a direct descendant of Wm. Penn.)

Edmund Fortune is in Anderson County, Kentucky in 1830.

Benjamin Fortune married Mary A. Bullard

John B. Fortune married Saline Hargrove. He was a hotel owner in Brownsville, Haywood County, Tennessee. He died 17 June 1862.

Zachariah Fortune Jr. married Julia Ann Humphrey.

Jinetty Willis S. Fortune married James Penny on 20 April 1831.

Sally Fortune married John Alexander.

Thomas E. Fortune born approximately 1791 in Nelson County, Virginia.

Patty T. Fortune married James Alexander, brother of John.

Richard F. Fortune married to Sabra Clark, resided in Tennessee.

Zachariah left Virginia with all the above listed children and moved to Kentucky in approximately the early 1800's. Detailed information can be found in the "Early Pioneer Families of Kentucky. Elisha founded the town of Fountain Run, Ky. Some of Zachariah's children stayed in Kentucky. Others left, as Richard did and went south to Tennessee.

The first legal hanging in Madison county was in the early 30's. A young man by the name of Jameson being re used by a wealthy farmer by the name of Sanders to visit his daughter, persuaded an old one-legged negro slave of Mr. Sanders to decoy his master to a secluded spot in the woods nearby, when he jumped from behind a tree and with a club slew him. Both Jameson and the slave were hung from the same limb, in a woods-lot a mile east of Jackson afterwards known as the Tomlin wood-lot.

One dark dreary night the latter part of the year 1859 George Miller, a young lawyer of Jackson, who was also acting as teller in the Branch Bank of the Union Bank of Tennessee, located in Jackson was foully murdered and the effects of the bank were all stolen. No positive clue to the crime was ever found out. Both the murdered and the murder have long since passed to the Great Beyond where all secrets are made clear.

NEW BOOKS ABOUT TENNESSEE AND THE SOUTH

by Johnny Malone

(The following talk was given by Mr. Malone at the Jackson-Madison County Library for a Friends of the Library book review. Mr. Malone who is Managing Editor and Book Editor for The Jackson Sun, has allowed us to share his talk with our readers.)

Since I last talked to you on "Recent Books about Tennessee and the South", there has been no letup in the stream of volumes about our state and the region. Indeed, as a book editor I am overwhelmed by the job of trying to keep up with all of them. What follows, then, is a highly selective, very personal overview.

Slavery in the ante- and post-bellum South has been a particularly popular topic in recent years and I can think of no better summary of the spectrum of attitudes toward it among scholars than "Perspectives and Irony in American Slavery" edited by Harry P. Owens and published by the University Press of Mississippi. Based on an Ole Miss symposium, the collection of essays ranges from Carl Degler's description of slavery as a "conflict between human bondage and the phrase 'all men are created equal' in the Revolution's great Declaration" to William K. Scarborough's interesting notion that, as a rule, the Southern slaveholder class in its stance toward blacks "was permeated by the sense of honor, noblesse oblige, chivalry, justice and Christian compassion." If you wish to get in on the steak-and-potatoes aspect of Negro history, then read this volume. It is an excellent counterpoise to such media-hyped books as Alex Haley's "Roots."

A spectacular book indeed is "A Vision Shared: A Classic Portrait of America and Its People (1935-1943)", compiled by Hank O'Neal and published by St. Martin's Press. It is a rich sampling from photographs of the Great Depression and beyond taken under the aegis of an army of government photographers. It includes many Southern photos including several from Tennessee. On page 90, for example, there is the picture with this outline: "Between Camden and Bruceton, Tenn., May 1936, family of nine living in one-room hut built over the chassis of abandoned Ford truck in open field on U. S. Route 70 near backward Tennessee section." It all evokes the spirit of James Agee's novel "Let Us Now Praise Famous Men" which you should read if you haven't.

In January, 1879 Mr. John J. Anderson, one of Jackson's largest grocery merchants, was found dead, with a bullet hole in his head, leaning against a tree, in a woods-lot known by many as Tomlin's grove, one mile east from the court house. This murder, like that of George Miller, is to this day, a mystery.

In 1870 or 1871 Mrs. Vanhook, an aged lady well known and respected by all, was found in her room, corner of Cumberland and College streets, with her head crushed. It was thought the deed was committed with a hammer or hatchet. This murder, like the two mentioned above, is veiled in mystery.

"The Southeastern Indians" by Charles Hudson, published by University of Tennessee Press, fails to mention Pinson Mounds near Jackson, but remains a valuable introductory work on the native people of the American Southeast. I particularly liked the assortment of interesting information Hudson imparts. For example: "The Southeast Indians thoroughly cooked all the meat they ate; they never ate it raw. They used two methods of cooking it: broiling and boiling. Small animals received a minimum of dressing before cooking. Sometimes they did not gut such animals as raccoon, opossum, rabbit and squirrel; they simply skinned them and cooked them whole. Hudson writes that the Southeast Indians -- including the Chickasaw, Cherokee, Choctaw, and Creek -- "possessed the richest culture of any of the native people north of Mexico."

"A Place To Come To" by Robert Penn Warren is an adverse look at the New South. Dr. Charles Mayo, in his review of the book for The Sun, wrote that the old "culture has been replaced by superficial chatter; the sense of the past has been redecorated in what one character describes as 'allegorical whimsy.' ...For Mr. Warren, born in 1905 in Guthrie, Ky., former Fugitive writer for nearly 50 years "A Place To To" may be his own way of coming home."

George Brown Tindall's "The Ethnic Southerners" from Louisiana State University Press argues that while there has been a lot of talk through recent decades about "the vanishing South," the region (or is it a is it a section?) has had a tendency to remain intact in the myth-ridden essentials.

Tindall, himself a southerner, emphasizes that "the reality of southernism...defies precise definition or objective analysis."

All the same, he describes several "objective factors" which have produced "a larger southernism": "a distinctive historical experience involving defeat and poverty; the climate and physical setting with their effects on life, tempo, emotion and character; the presence of the Negro and his pervasive influence on the whole life of the region; the powerful religious heritage and the knowledge of good and evil; and finally, the persistence of an essentially rural culture with its neighborliness in human relations."

In the same vein as Tindall is Carl N. Degler's "Place Over Time: The Continuity of Southern Distinctiveness", also from LSU Press. The Stanford University historian from New Jersey maintains that the distinctiveness of Southerners that they "are more conservative, more nationalistic, more self-identified, more defensive, more romantic, less rich, less urban, less diverse demographically and religiously, and more likely to be black" -- can be traced to plantation Negro slavery, which in turn was encouraged by world market demands for Southern staples produced on the plantations. The ultimate irony was that this world market, epitomized by England, would not come to the aid of the South in its hour of greatest need, refusing the Confederacy recognition, especially after Abraham Lincoln issued the Emancipation Proclamation.

Tindall's and Degler's books should be read alongside "The Improbable Era" by Charles P. Roland, University of Kentucky historian who is a native of this area.

"Masters Without Slaves: Southern Planters in the Civil War and Reconstruction" by James L. Roark, published by W. W. Norton, makes extensive use of the 1843-1871 diary of John Houston Bills of Bolivar now reposing in 27 volumes at the University of North Carolina at Chapel Hill. Bills, who owned four plantations just outside Bolivar along with scores of slaves, longed for the days of such pacifiers as Clay and Webster whose compromises guaranteed slavery while preserving the Union. When the showdown came, however, he told his diary: "I go with my section come what will -- but give up the government as I would an old friend; in sorrow." War's end found him retaining his plantations on a new basis. On May 29, 1865, Roark records, "Bills met with his former bondsmen to tell them that he accepted their freedom and was willing to write contracts with them for cultivation of the present crops on a share basis." Roark does not condone the actions or motives of planters; rather, he seems to sympathize with them, finding they had no alternative world view to turn to when their civilization fell.

"Wilderness Calling: The Hardeman Family in the American Westward Movement, 1750-1900" by Nicholas Perkins Hardeman comes from the University of Tennessee Press. It is about a family which figures prominently in West Tennessee, Tennessee and national history. We have our Hardeman County south of Jackson and, of course, there is Freed-Hardeman

College at Henderson, named for N. B. Hardeman. I gave my review copy of the book to an aunt at Henderson, who was a Hardeman before she married my uncle Shelbin. Although it is not intended to be so, the book is a genealogist's dream, especially so since the author is a member of the family about which he is writing as well as an accomplished historian from the West Coast. The story is so complicated I will not recount it here except to say that it is an excellent practical application of Frederick Jackson Turner's landmark theory on the influence of the frontier on American history. Hardeman's book suggests that family ties, the seemingly inherited tendency of relatives merely to wander divorced from economic necessity, constituted an important goad to westward migration.

Peter Taylor, a native of Trenton, Tenn., and a part-time faculty member at the University of Virginia, has a new collection of short stories, "In The Miro District", from Alfred E. Knopf publishers. It attests to Taylor's critically hailed writing skills. The Nashville and Memphis areas are locales for his short stories. Indeed, Nashville is almost a silent character in the book's title story, an intangible force impinging on the relationships among members of a family.

Gordon H. Turner, former Nashville Tennessean feature writer, has written "The History of Scotts Hill, Tenn." based on his own remembrances and memories of other area residents along with the stories handed down from generation to generation. Genealogy tables are available for such family names as Austin, Duck, Eason, Scott, Stanfill, Swift, Woody, Wylie and Turner.

Turner occasionally looks at life in the "good old days." For example, he describes how stagecoach travelers managed comfort stops in the days before gas stations. He reports that drivers would stop the stages at springs along the way and advise passengers that good drinking water was available and that a walk in the beautiful woods would be "restful," but ladies should walk this way and gentlemen that way. (This book is available from Mr. Turner who lives at Scotts Hill.)

"Whiskey Man" by Howell Raines, from Viking Press, is an entertaining novel with a northeast Alabama setting. It is in the tradition of William Faulkner, Flannery O'Connor, Eudora Welty, Carson McCullers, Jesse Hill Ford and Peter Taylor -- which is really saying something for

a first novel. At bottom, it is a story about the deep-seated divisions between the plantation-, middle class- and white-trash stocks of Southerners. On top of it all, whiskey and Bible square off. You'll not soon forget "Whiskey Man."

Clement Eaton has written a major new biography of Jefferson Davis, the Confederacy's only president, for Free Press-Macmillan publishers. It springs from Eaton's belief that "this spinx-like, complex man, with so many virtues and so many faults, is not really understood by modern historians." Overall, it is a sympathetic look at a figure often harshly criticized in historical circles. Eaton writes at one point: "If one had to choose an outstanding trait of Davis's, it would have to be the high value that he placed on honor. It was not simply a regard for his personal honor, but for his duty as a soldier, for the American flag, and as a statesman for the honor of the South."

"Andrew Jackson and the Course of American Empire, 1767-1821" by Robert V. Remini, Harper & Row publishers, is the first of two planned volumes on the life and career of Old Hickory. The author is so steeped in Jacksonian lore that it is a pure pleasure to read the work, which extends from Jackson's birth in 1767 to the close of his 1821 stint as the first governor of the newly acquired Florida Territory. Remini has made special use of new information from the archives in Spain which reflect that nation's point of view as a colonial power on America's rapidly expanding southern border in the early 19th century.

The author's thesis is captured in this statement: "From the time he arrived in Tennessee, Jackson absorbed powerful sentiments against all barriers to westward expansion and economic prosperity -- be they Indian, Spanish, British, or whatever. Eventually he annihilated those barriers. More than any other man, Jackson was responsible for the removal of the Indians to the remote reaches west of the Mississippi River. More than any other man, he kept the British from returning to the Gulf Coast. More than any other man, he expelled the Spanish from their southern stronghold and made possible the transformation of the United States into a continental power."

The late James Jones' "Whistle", the last of a trilogy of novels beginning with "From Here to Eternity" and finished after his death by Willie Morris, his friend and neighbor, is published by Delacorte

Press. Its setting is mainly Memphis, Tenn., during 1943 as a group of wounded -- in body as well as mind and spirit -- soldiers return from the war to recuperate, to receive treatment and to prepare for peacetime as well as the return to battle.

(Mr. Malone concluded his remarks by mentioning Shelby Foote's "September, September" which has a Memphis area setting and is published by Random House. -- Editor's note)
